

**Composer · Singer · Songwriter · Storyteller**

**TECHNICAL RIDER: QUARTET**

**VOCALS, E-PIANO, ACOUSTIC GUITAR, E-BASS, DRUMS**

**1. Audio Requirements**

**Vocals**

- 2 vocal microphones (high-quality dynamic or condenser)
- Each microphone must have separate reverb (hall) control
- 2 microphone stands

**E-Piano**

- 88-key digital piano with fully weighted keys (if possible from venue)
- Stereo output (L/R) preferred
- 1 keyboard stand and bench

**Acoustic Guitar**

- 1 DI box (standard 1/4" jack input)
- Optional guitar stand

**E-Bass**

- Bass amplifier / combo amp suitable for the venue
- DI output from bass amp OR separate DI box for clean signal to FOH
- Power supply provided by venue

**Drums**

- Standard 5-piece drum kit (if provided by venue):
- Kick, snare, 1 rack tom, 1 floor tom
- Hi-hat, ride, crash
- 3-5 drum microphones (kick, snare, overheads minimum)
- Drum carpet essential
- If drummer brings own kit, venue must provide adequate space and riser (optional)

**TECHNICAL RIDER: QUARTET**

**VOCALS, E-PIANO, ACOUSTIC GUITAR, E-BASS, DRUMS**

**General PA Requirements**

- Professional PA system suitable for room size, including:
  - FOH Speakers
  - Subwoofer (recommended for bass + kick drum)
  - Mixer with at least 8 channels
  - 2 vocals
  - E-piano L/R
  - Acoustic guitar
  - Bass DI
  - Drum mics

**Monitor system**

- At least 2 stage monitors, ideally 3 (vocals, piano/guitar, drums)
- 4 IE systems optionally

## **2. Stage Setup**

**Suggested layout**

- Front line:
  - Vocal Mic 1 – Acoustic Guitar – Center Right
  - Keyboard + Vocal Mic 2 – Center Left
- Back line:
  - Drums – Stage Center Rear
  - Bass Amp – Stage Right Rear
- Requirements (optional)
  - Stable stage surface
  - At least 4-5 m width for comfortable placement
  - Drum carpet essential
  - Minimal noise from lights (no humming)
